

CUSTOMIZED CALL STATIONS BY JERON

Jeron's Pro-Alert 480 Area of Rescue Assistance System is a readily scalable and customizable solution to meet the requirements of any type of commercial or residential building. This flexibility extends to Jeron's ability to customize the emergency call stations for each facility's specific requirements.

TAILORED STATION OPTIONS INCLUDE:

- Heavy-gauge construction with tamper-proof mounts, call buttons, and speakers
- Call buttons (color, flush style, or mushroom)
- Metal construction with custom colors and finishes
- Facility-specific dimensions including vertical or horizontal orientation
- Instructional language including raised text and braille

In addition to being the first Area of Rescue system to be UL2525 Listed by Underwriter's Laboratories, the Pro-Alert 480 system meets all IBC requirements, ADA standards, and National Building Codes.
